

About Us

As a Personal shopper our goal is to offer our customers a 360° shopping experience aimed at achieving their goals and needs.

Our Services

Shopping Tour

This is a tour that is created by the personal shopper after evaluating the customer's requests and can include shops, outlets, shopping centers, boutiques and markets. In fact, according to the requests, personalized shopping itineraries are proposed that meet the individual needs of the customer. The consultant will be able to satisfy every shopping need with professionalism, style and exclusivity, allowing the customer to optimize time and money in the best possible way.

Shopping On Demand

This is a service that can be organized when the customer is not available in person. The duty of the personal shopper is researching the most appropriate item according to his needs. This service can be done on commission.

Color Analysis

Color analysis test that aims to identify your "friendly" colors, that is, those that best enhance the person. The test is based on the study of the combination of skin, eyes and hair and is carried out using special colored drapes. This analysis is advisable for both men and women and is a point of reference for what concerns clothing, make-up, hair and jewelry. The chromatic test can be held directly in the guest's room.
